Summary: Detail-oriented professional with 6+ years of experience in pharmacovigilance and public health, now transitioning to a data analyst role. Proven expertise in data collection, cleaning, coding, and reporting, with advanced proficiency in Excel, SQL, Tableau, and Power BI. Strong analytical skills, experience with large datasets, and a foundation in data visualization and statistical analysis. Adept at translating complex data into actionable insights to support data-driven decision-making.

Technical Skills

- **Data Analysis & Visualization**
 - Excel: Advanced formulas, Pivot Tables, VLOOKUP, data cleaning, and charting for trend analysis.
 - Tableau, Power BI: Dashboard creation, interactive visualizations, and KPI reporting.
 - **Programming & Databases**
 - SQL: Data extraction, joins, aggregations, filtering, subqueries, and window functions for reporting and analysis.
 - Python: Data manipulation with Pandas, basic data cleaning.
 - R: Data wrangling and basic statistical analysis.
 - **Statistical & Data Concepts**
 - Descriptive statistics, correlation, hypothesis testing, and data validation.
 - **Other Tools**
 - Microsoft Office Suite, SharePoint.
-
